Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1 and 2 are rejected under 35 U.S.C. 102(a or e) as being anticipated by Tanaka et al (6,908,872) for reasons of record.

Applicant's argument that the compositions of Tanaka et al fail disclose the claimed range with sufficient specificity is not persuasive in overcoming the rejection. Example 4 and many of the examples in Table III-1A fall squarely within the claimed range. Furthermore, a reference may be relied upon for all it teaches not the disclosure of the specific examples, In re Van Mater 144 USPQ 421 (1965). The rejected claims are silent as to the dielectric constant and Q value.

3. The rejection over EP 0838446 is withdrawn in view of applicant's argument that the taught molar ratio of Sn is outside the claimed minimum, see Table 11. Applicants require a "x" value of .3 minimum.
4. Applicants argument that the molar ratio of Sn taught in the JP document is less than the claimed molar ratio is persuasive in overcoming the rejection over JP6-74162 and JP6-174162 further in view of Tatekawa et al(6,369,669). The "x" value taught in the Japanese document is a maximum of .23.

Allowable Subject Matter

5. Claims 3-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
